- Mesinger, F., 1973: A method for construction of second-order accuracy difference schemes permitting no false two-grid-interval wave in the height field. *Tellus*, **25**, 444--458.
- Mesinger, F., A. Arakawa, 1976: *Numerical Methods Used in Atmospheric Models*. Vol. I. GARP Publications Series No. 17, WMO, Geneva, x + 64 pp.
- Mesinger, F., 1977: Forward-backward scheme, and its use in a limited area model. *Contrib. Atmosph. Physics*, **50**, 200--210.
- Mesinger, F., 1982: On the convergence and error problems of the calculation of the pressure gradient force in sigma coordinate models. *Geoph. Astroph. Fluid Dyn.*, **19**, 105--117.
- Mesinger, F., 1984: A blocking technique for representation of mountains in atmospheric models. *Rivista Meteorologia Aeronautica*, **44**, 195--202.
- Mesinger, F., Z. I. Janjić, 1985: Problems and numerical methods of the incorporation of mountains in atmospheric models. *Large-Scale Computations in Fluid Mechanics*, Part 1, B. E. Engquist et al., Eds. *Lect. Appl. Math.*, **22**, Amer. Math. Soc., 81--120.
- Mesinger, F., Z. I. Janjić, S. Ničković, D. Gavrilo, D. G. Deaven, 1988: The step-mountain coordinate: Model description, and performance for cases of Alpine lee cyclogenesis and for a case of an Appalachian redevelopment. *Mon. Wea. Rev.*, **116**, 1493--1518.
- Mesinger, F., T. L. Black, 1992: On the impact on forecast accuracy of the step-mountain (eta) vs. sigma coordinate. *Meteor. Atmosph. Phys.*, **50**, 47--60.
- Mesinger, F., R. E. Treadon, 1995: "Horizontal" reduction of pressure to sea level: Comparison against the NMC's Shuell method. *Mon. Wea. Rev.*, **123**, 59--68.
- Mesinger, F., 1996: Improvements in quantitative precipitation forecasts with the Eta regional Model at the National Centers for Environmental Prediction: The 48-km upgrade. *Bull. Amer. Meteor. Soc.*, **77**, 2637--2649; Corrigendum, **78**, 506.
- Mesinger, F., 2000: Numerical Methods: The Arakawa approach, horizontal grid, global, and limited-area modeling. *General Circulation Model Development*. D. A. Randall, Ed., Academic Press, 373--419.
- Mesinger, F., 2001: Limited Area Modeling: Beginnings, state of the art, outlook. *50th Anniversary of Numerical Weather Prediction Commemorative Symposium*, Book of Lectures. Potsdam, 9--10 March 2000, A. Spekat, Ed., Europ. Meteor. Soc., 91--118.
- Mesinger, F., 2004: The Eta Model: Design, history, performance, what lessons have we learned? *Symp. on the 50th Anniversary of Operational Numerical Weather Prediction*, Univ. of Maryland, College Park, MD, 14--17 June 2004. [<http://www.ncep.noaa.gov/nwp50/Agenda/Tuesday/>]
- Mesinger, F., G. DiMego, E. Kalnay, K. Mitchell, P. C. Shafran, W. Ebisuzaki, D. Jovic, J. Woollen, E. Rogers, E. H. Berbery, M. B. Ek, Y. Fan, R. Grumbine, W. Higgins, H. Li, Y. Lin, G. Manikin, D. Parrish, W. Shi, 2006: North American Regional Reanalysis. *Bull. Amer. Meteor. Soc.*, **87**, 343--360.
- Mesinger, F., 2008: Bias adjusted precipitation threat scores. *Adv. Geosciences*, **16**, 137--143.
- Veljovic, K., B. Rajkovic, M. J. Fennessy, E. L. Altshuler, F. Mesinger, 2010: Regional climate modeling: Should one attempt improving on the large scales? Lateral boundary condition scheme: Any impact? *Meteor. Zeitschrift*, **19**, 237--246.
- Mesinger, F., S. C. Chou, J. Gomes, D. Jovic, P. Bastos, J. F. Bustamante, L. Lazic, A. A. Lyra, S.

Morelli, I. Ristic, K. Veljovic, 2012: An upgraded version of the Eta model. *Meteor. Atmosph. Phys.*, **116**, 63---79.

Mesinger, F., K. Veljovic, 2013: Limited area NWP and regional climate modeling: A test of the relaxation vs Eta lateral boundary conditions. *Meteor. Atmosph. Phys.*, **119**, 1---16.

Mesinger, F., K. Veljovic, 2017: Eta vs. sigma: Review of past results, Gallus---Klemp test, and large---scale wind skill in ensemble experiments. *Meteor. Atmosph. Phys.*, **129**, 573---593.

Mesinger, F., M. Rančić, R. J. Purser, 2018: Numerical Methods in Atmospheric Models. *Oxford Research Encyclopedia of Climate Science*. 51 pp. [doi:10.1093/acrefore/9780190228620.013.617]
