## 1973. – 1977.

88. Tucaković G, Kanjuh V, Nedeljković V, Nešić B, Kecman Lj. **Koronarna arterijsko-kameralna i arterijsko-venska fistula (Povodom tri slučaja)** [*Coronary arterio-cameral and arteriovenous fistula (On the occasion of three cases)*]. Zbornik rezimea VI kongresa Jugoslovenskog kardiološkog društva s međunarodnim učešćem. Opatija, 1973; str. 44-5.

89. Kanjuh V, Tucaković G, Velimirović D, Pavićević R, Bajić R. **Izlazak leve koronarne arterije iz plućne arterije (Povodom dva slučaja)** [*Origin of left coronary artery from pulmonary artery (On the occasion of two cases)* ]. Ibid, str. 62.

90. Lazović M, Rakić D, Kanjuh V. **Haemangioendothelioma of the left liver lobe treated successfully by partial liver resection.** Pamićnik III zjazdu naukowego polskiego towarzystwa chirurgow dziecięcych. Katowice, 1973; str. 447-50.

91. Tucaković G, Kanjuh V, Velimirović D, Lastić S. **Patološko-anatomske osobenosti zajedničkog atrio-ventrikularnog kanala od značaja za hiruršku korekciju**[*Patho-anatomical particularity of the common atrio-ventricular canal important for surgical correction*]. II kongres patologa Jugoslavije. Izvodi iz referata. Beograd, 1974; str. 79.

(92). Tucaković G, Kanjuh V, Đurić V. **I. Izolovani ventrikularni septalni defekt (Definicija, priroda lezije i učestanost; istorijat istraživanja VSD; embriologija ventrikularnog septuma; formalna geneza i patološka anatomija VSD)** [*Isolated ventricular septal defect (Definition, characteristics of lesion and frequency; history of VSD investigation; embryology of ventricular septum, formal genesis and pathologic anatomy of VSD)*]. U knj: Urođene srčane mane (Đorđević BS, Kanjuh VI i sar). Izd. Inst za struč usavrš i spec zdravstv radnika. Beograd, 1974; str. 132-45.

(93). Đurić V, Knežević S, Kanjuh V, Tucaković G. **Izolovani ventrikularni septalni defekt (Odnos patološko-morfološkog supstrata i hemodinamike kod VSD; spontano postnatalno zatvaranje VSD; klinička slika, dijagnostičke metode i tok kod VSD; indikacije za hiruršku intervenciju kod VSD)** [*Isolated ventricular septal defect (Relationship between patho-morphologic substrate and haemodynamics; spontaneous postnatal closure; clinical picture, diagnostic methods and course; indications for surgical intervention)* ]. Ibid, str 146-60.

(94). Jevtić V, Tucaković G, Kanjuh V. **Kongenitalne aortne atrezije i stenozе**[*Congenital aortic atresia and stenosis*]. Ibid, str 178-99.

(95). Kanjuh V, Jevtić V, Tucaković G. **Kongenitalne aortne insuficijencije**[*Congenital aortic insufficiency*]. Ibid, str 200-10.

(96). Kanjuh V, Tucaković G, Đorđević BS, Nedeljković V, Božinović Lj, Lastić S. **Kongenitalne anomalije aortnog luka (Embriologija, klinička i komparativna anatomija aortnog luka. Formalna i kauzalna geneza, patološka anatomija i klinika anomalija** [*Congenital anomalies of the aortic arch (Embryology, clinical and comparative anatomy of aortic arch. Formal and causal genesis, pathologic anatomy and clinic of the anomalies)*]. Ibid, str str.230-58.

(97). Tucaković G, Kanjuh V. **Transpozicije velikih arterija srca (Patološko-anatomski supstrat, koncepcije Van Praagh-ovih, podela, analiza tipova i patogeneza)** [*Transpositions of great heart's arteries (Patho-anatomic substrate, conceptions of Van Praaghs, classification, analysis of types and pathogenesis)*]. Ibid, str 264-80.

(98). Tucaković G, Kanjuh V. **Patološka anatomija i fiziologija klasične kompletne transpozicije velikih arterija srca**[*Patho-anatomy and physiology of classic complete transposition of the great heart's arteries*]. Ibid, str 281-9.

(99). Kanjuh V, Tucaković G. **Patološka anatomija klasične korigovane transpozicije velikih arterija srca**[*Patho-anatomy of the classic corrected transposition of the great heart's arteries*]. Ibid, str 290-7.

(100). Kanjuh V, Tucaković G, Velimirović D. **Kongenitalne anomalije koronarnih arterija (Embriologija koronarne cirkulacije, koronarnih arterija i semilunarnih valvula. Formalna geneza, patološka fiziologija anomalija)** [*Congenital anomalies of the coronary arteries (Embryology of coronary circulation, coronary arteries and semilunar valves. Formal genesis, patho-physiology of anomalies)*]. Ibid, str 298-316.

(101). Kanjuh V, Edwards JE. **Patološka morfologija, evolucija i etiologija patološke plućne arterijsko-venske komunikacije**[*Patho-morphology, evolution and etiology of the pathologic pulmonary arterio-venous communication*]. Ibid, str 331-52.

(102). Kanjuh VI, Đorđević BS. **Klinika i hirurška terapija patološke plućne arterijsko-venske komunikacije**[*Clinic and surgical therapy of the pathologic pulmonary arterio-venous communication* ]. Ibid, str 353-64.

(103). Kanjuh V. **Formalna geneza i patološka anatomija kongenitalnih anomalija plućnih vena** [*Formal genesis and pathologic anatomy of the congenital anomalies of the pulmonary veins*]. Ibid, str 365-97. Preštampano u knj. Nedeljković SI, Kanjuh VI, Vukotić MR i sar. **Kardiologija**, Tom 2, treće izd. Izd "Beograd". Beograd, 2000; 2 (18.15): 2228-48 i u knj Kanjuh VI i sar. **Morfološko-kliničke korelacije u kardiovaskularnim bolestima**. SANU. Odbor za kardiovaskularnu patologiju. Izd "Beograd". Beograd 2001.
